Sincerely gratitude Hong Kong Productivity Council , Edmond WONG ITUM Founder and trainee of eyewear 3D Design and Modelling Course for their fruitful sharing. In the webinar, everyone believed that the use of 3D design technology can improve the customer's experience. With the promotion and improvement of 3D technology and the application of 5G technology, 3D technology will become more popular and will be the future production technology.

借此衷心感謝生產力局、ITUM 創辦人 Edmond WONG 和眼鏡3D設計與模型製作課程學員的分享。會上大家認為透過使用3D 設計技術可提高客戶核對樣辦的體驗，而未來發展方向是隨著 3D 技術的提升和改善, 配合5G 通訊應用，3D 技術將更普及化，亦將是未來生產科技的基本。
